

High Voltage DC-DC

Introducing our Innovative Single-Stage Power Conversion System—a cutting-edge solution designed for optimal cost efficiency, high performance, and seamless integration in electrified vehicles.

Power up your electrified vehicle with our next-generation power conversion technology!

HIGH VOLTAGE DC-DC

Parameter	Values
• Power Class	Up to 4kW
• HV Voltage Range	400V: 220V -470V / 800V:340V -850V
• LV Voltage Range	6V -16V (Optional: 3V -16V)
• Efficiency	>96%
• Comm. Interface	CAN
• Cooling Concept	Passive Air & Water
