Service connections for air conditioning system

During maintenance or repair work on the vehicles listed above, the question "Where are the service connections?" arises.

To access the service connections, proceed as follows:

- Open the hood
- Clear out the charging box (charger etc.); Figure 1
- Remove the screws from the charging box (6x) (Figure 2)
- Remove the right-hand covers next to the charging box (Figures 3+4)
- Remove the left-hand cover next to the charging box
- Take out the charging box
- The service connections are now visible (Figure 5)

Note: The vehicle's air conditioning system contains the refrigerant R1234yf. Quantity: 750 g
