

## *VW from 2/1999*

### CD changer

An updated CD changer as original equipment is being installed in the above-mentioned vehicles as from February 1999. These devices can only read "burned" CD`s if they were burnt in the file format "Audio".

A check with an "original" CD can prove whether the CD changer is functioning.

This should also be taken into consideration as the fault cause when this occurs in other vehicle-/system manufacturers.
